FINAL PROGRAMME

Welcome message

Dear Friends and Colleagues,

It is my great pleasure to welcome you to IWCM 2026, a Congress that continues to grow as an international meeting point for knowledge, innovation, scientific exchange and professional excellence.

This year, we have worked to continue creating a program that goes beyond traditional scientific presentations, placing practical experience, clinical insights and direct interaction at its very heart. Our goal is to offer every participant an opportunity not only to learn from leading experts but also to take home new perspectives, valuable skills, and ideas that can make a real difference in daily clinical practice.

Through live demonstrations, practical challenges, innovative video presentations, expert discussions, roundtables and dedicated Anatomy Sessions, IWCM 2026 will explore the latest developments and future directions in our field.

At the core of our Congress are the three interconnected disciplines that define its identity: **Aesthetic Medicine, Plastic & Cosmetic Surgery and Dermato-Cosmetology**. Bringing these specialties together allows us to encourage cross-disciplinary dialogue, share different approaches, and explore the opportunities emerging at the intersection of science, technology, and aesthetic practice.

We are particularly proud of the international dimension of IWCM. Welcoming colleagues from across the world creates an exceptional environment for exchanging experiences, building professional relationships and fostering collaborations that extend well beyond the Congress itself.

A meeting of this scale is made possible by the dedication of many people. My sincere gratitude goes to our Scientific Committee, our organizing team, our partner scientific societies, our speakers and moderators, and all the companies and partners who continue to believe in and support the IWCM vision. Your contribution is essential to making this Congress a place where science, innovation, and professional communities can truly come together.

I wish you all an inspiring and rewarding Congress, filled with meaningful discussions, new connections and opportunities to grow.

Welcome to IWCM 2026! Let us continue to shape the future of our disciplines, together.

Warm regards,

Franco Vercesi
